

ADVANCED DENT REPAIR

PROTECTING YOUR INVESTMENT

Finding dents and dings on your new vehicle is extremely annoying but often unavoidable; they're unsightly, expensive to fix and can lower the resale value of your vehicle.

Wouldn't it be nice if you could bring your vehicle in and have those dents and dings repaired at your convenience, with no deductible?

With Advanced Dent Repair, you get unlimited Paintless Dent Repair (PDR) for up to 5 years, performed by Certified PDR Technicians!

What is Paintless Dent Repair?

Paintless Dent Repair (PDR) is the process by which highly skilled technicians remove small dents and dings (up to 2" in diameter) without harming a vehicle's factory finish.

These craftsmen use specialized hand tools to flex and manipulate the exterior panels of a vehicle from the inside, to restore their original shape.

Because PDR works from the inside, vehicles repaired using this method do not require sanding, painting or fillers and often show no evidence that the dent, ding or crease ever existed.

PDR is the best way to restore & preserve your vehicle's factory look!
