### TECHNOLOGY COVERAGE

Today's vehicles contain technologically advanced electronic components that are designed to keep us safe, while connecting us to the world.

Unfortunately, these vital safety features and creature comforts are also some of your vehicle's most expensive components to repair and/or replace when they fail.

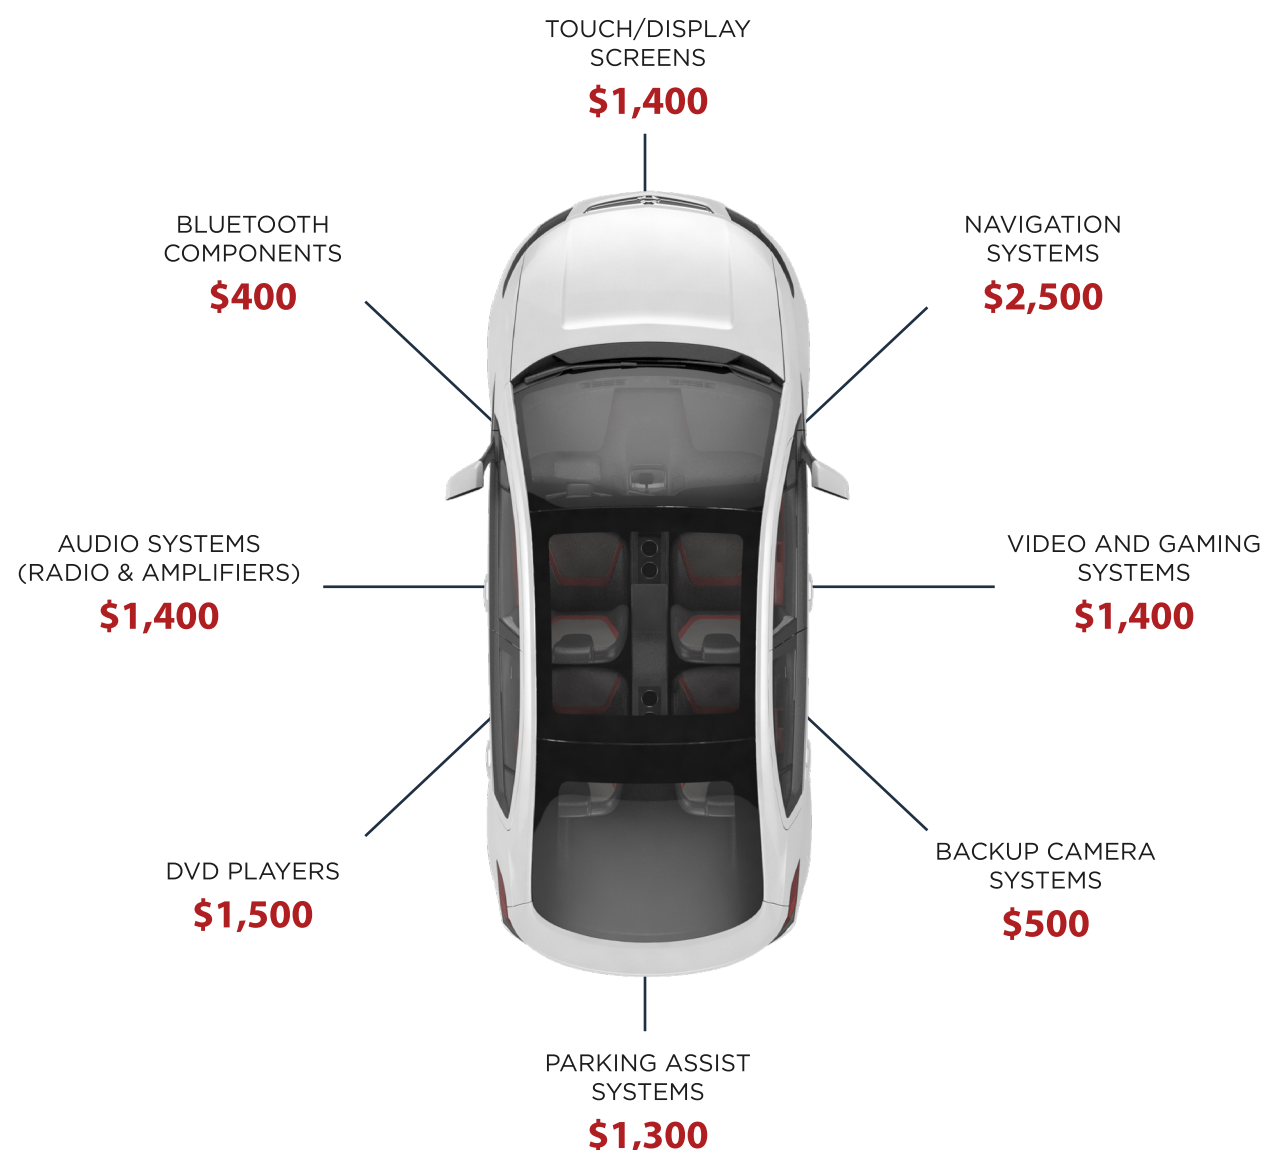

With your Technology Service Contract, we cover the costs associated with repairing or replacing your vehicle's electronic components so you can drive safe and stay connected.

That means you can avoid disruptions to your personal budget when an unexpected covered repair occurs!

Your technology service contract is even transferable should you sell your vehicle to a new owner!
